

Insight 1

Which categories have the most views and likes?

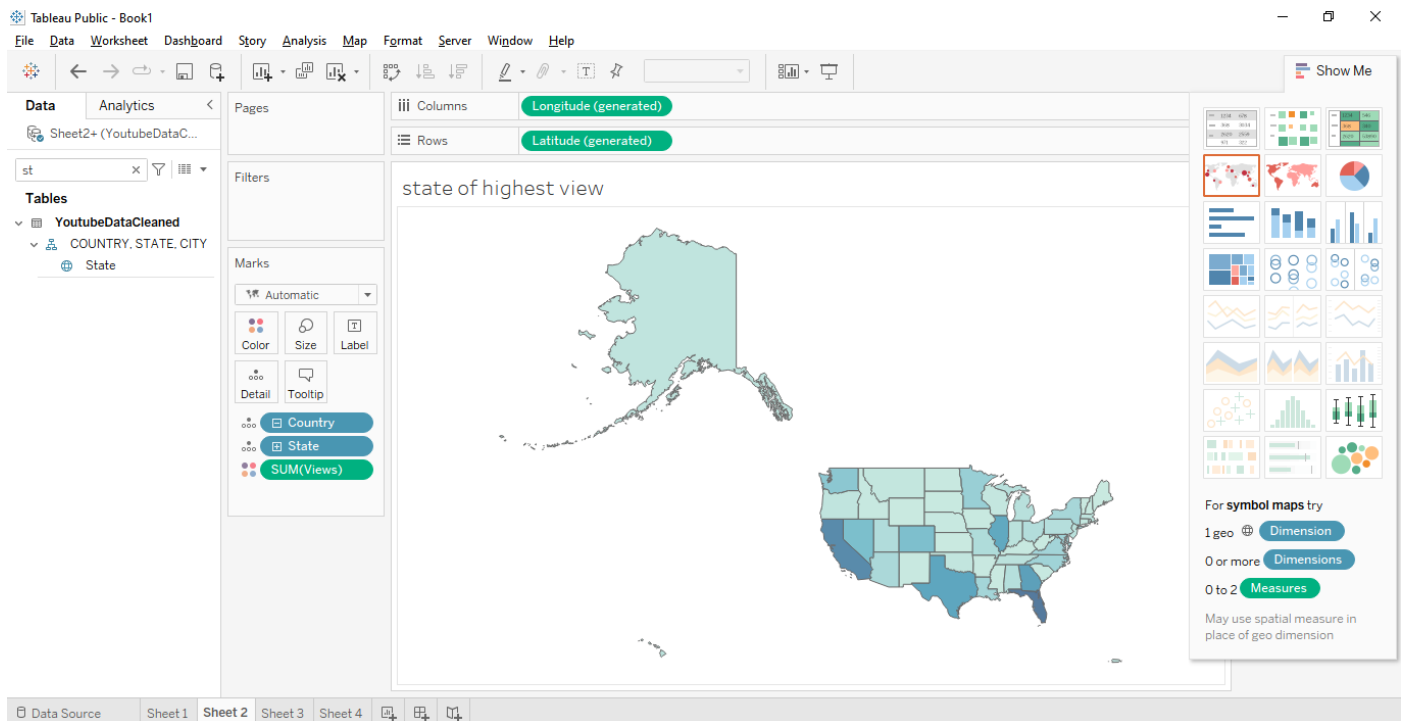

Through above we can conclude they are music, comedy and entertainment.

Comment

I used scatter blot to allow visualization of different categories with likes and views.

Insight 2

Which states has the highest views?

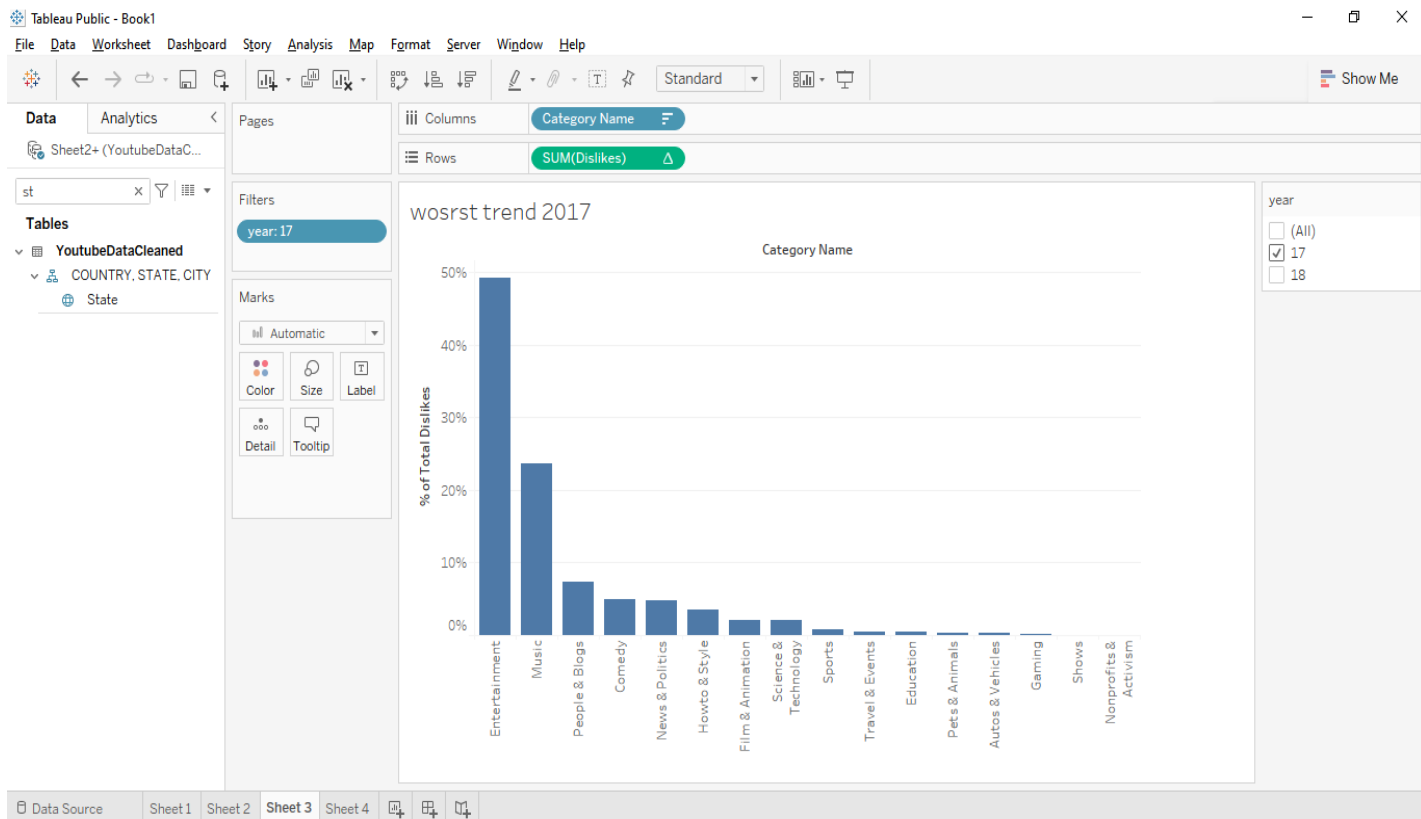

From above it seems to be FL and CA with dark blue.

Comment

I chosed map to make the visualization better for each state by clour fromw white blue to dark blue.

Insight 3 with filter for year

Which trend was the worst in 2017?

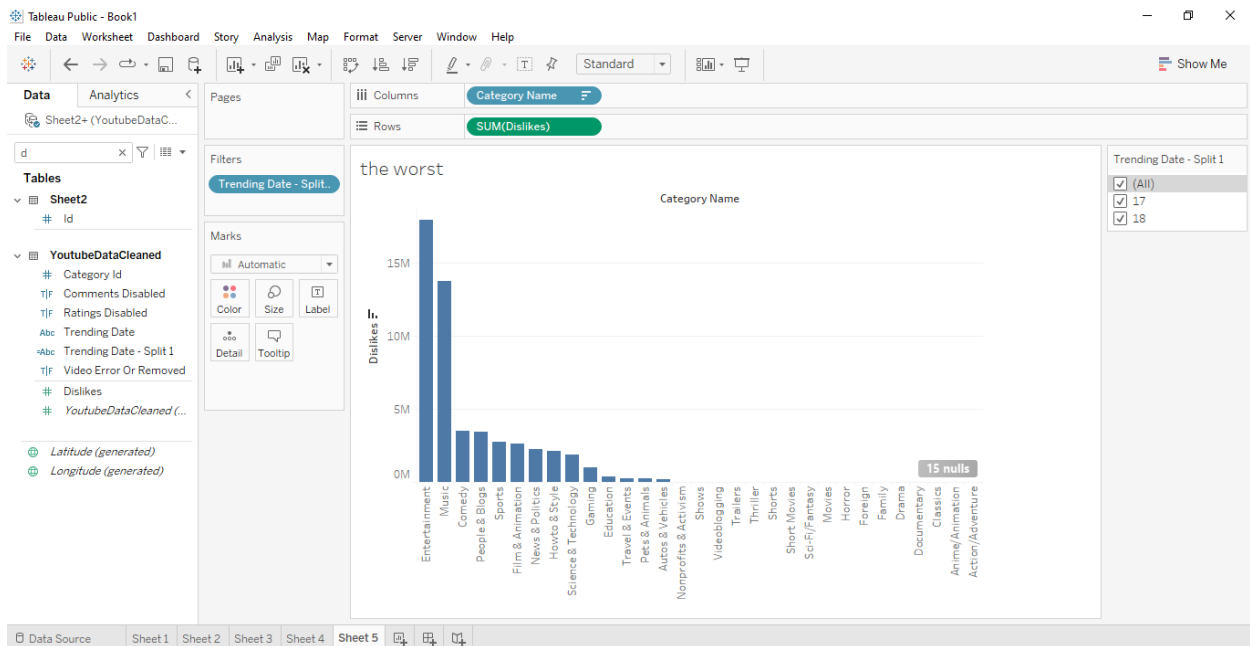

It seems to be entertainment with total percent nearly reach 50.

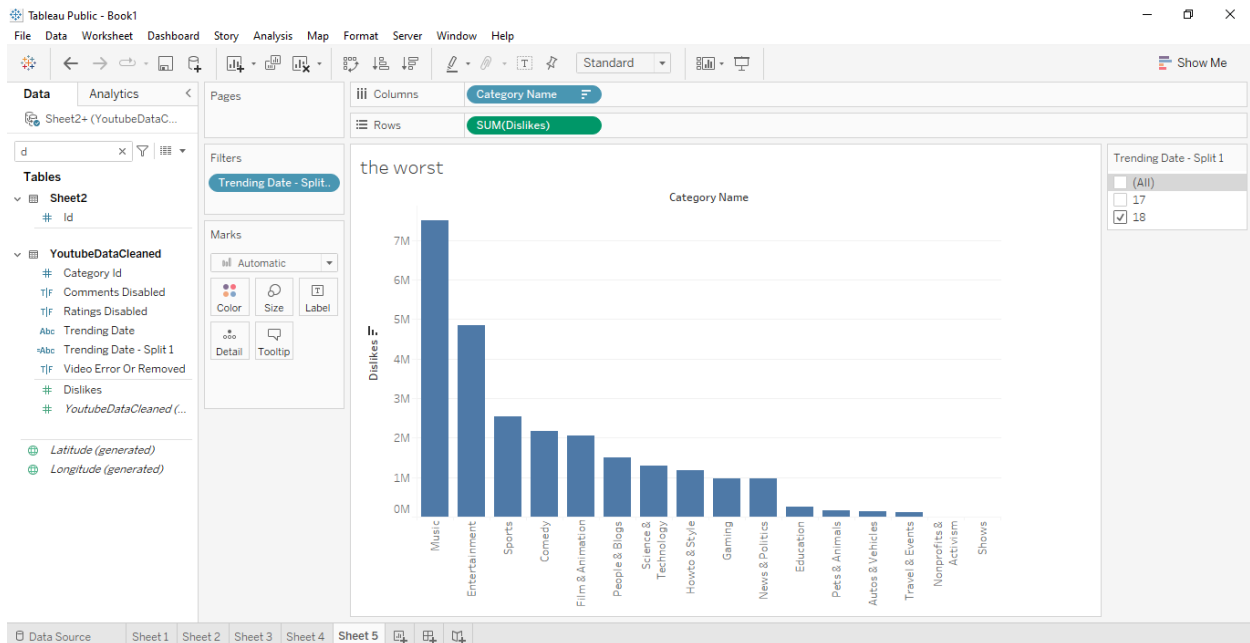

Comment

I used bar chart to better visualization of the highest bar.

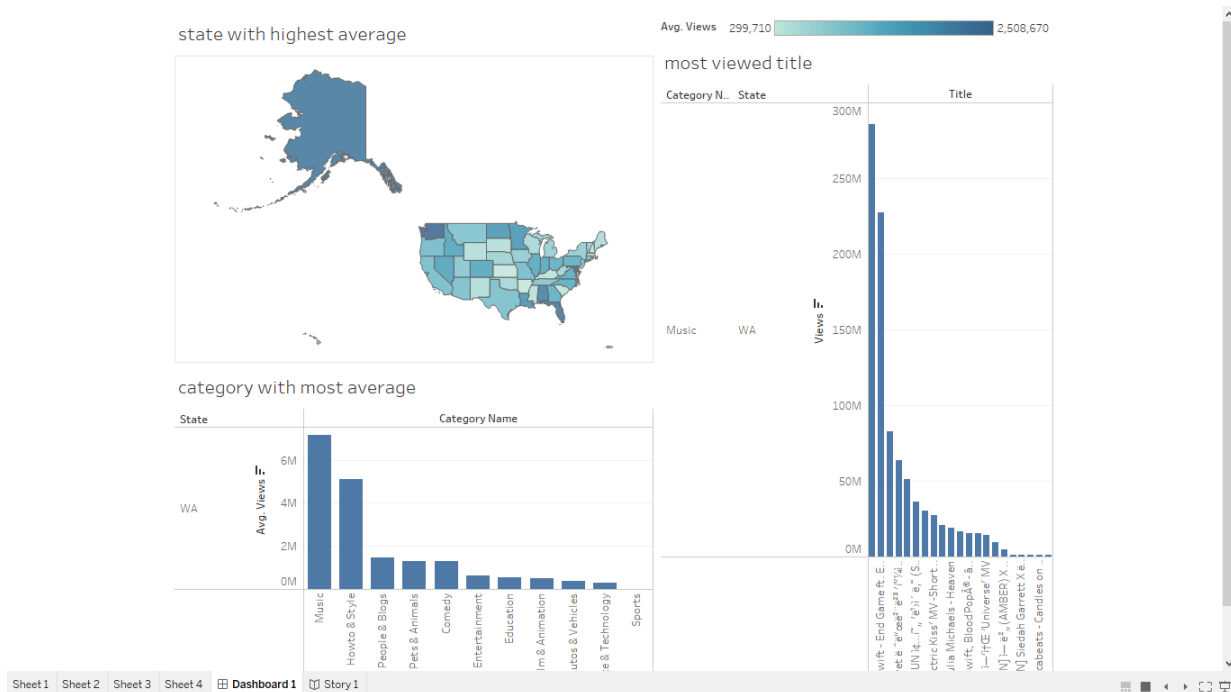

Filters18,17

Filter18

Dashboard

On the top left state with highest average of view(wa).

Comment

I chosed map to make the visualization better for each state by clour fromw white blue to dark blue.

In button highest average of views in wa which is music.

On the right the highest title in wa which is yulor swift delicate.
